

Business Validation in 5GZORRO

Business Modelling

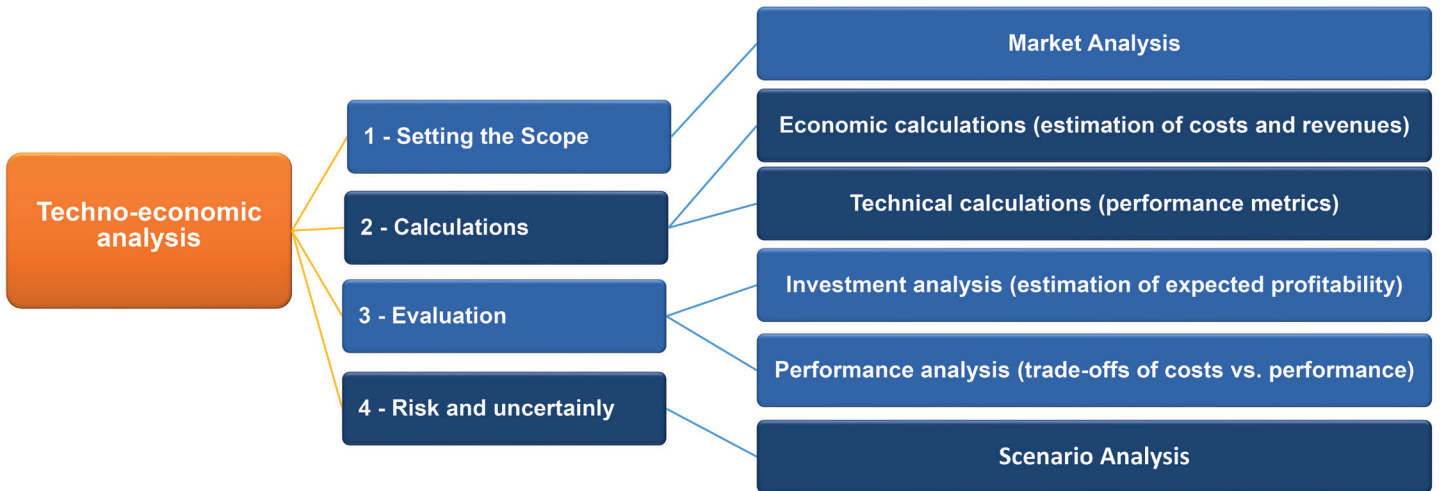

"5GZORRO promotes market competition by ensuring an efficient spectrum use, but also implementing the controls to allow for regulatory oversight and intervention" **(Concessionaire)**

"With 5GZORRO you can scale up and down dynamic spectrum to meet your needs in a fast, automated, cost efficient and easy way, always in a secured environment" **(Vertical)**

"With 5GZORRO, an operator can maximize monetary value by trading underutilized spectrum and acquire new rights of use when needed, minimizing capital expenditure" **(Telco Operator-CSP)**

"With 5GZORRO platform, the leasing of unexploited resources is automatically and dynamically realized, without hindering the 3rd party network operation" **(Resource Provider)**

Cost Assessment Methodology

Help us shape the business model and feasibility of 5GZORRO Platform!
